PROFESSIONAL SUMMARY

Frontend Developer with 1+ year of experience building scalable, responsive, and user-focused web applications using React.js, JavaScript (ES6+), and modern frontend tools (Vite, Material UI, Tailwind CSS). Skilled in component-driven development, state management, and REST API integration, with hands-on experience delivering enterprise solutions like MES and VMS platforms. Passionate about crafting clean, maintainable code and collaborating with teams to deliver high-quality, performance-driven applications.

WORK EXPERIENCE

Associate Software Engineer, Scutoid Technologies Pvt. Ltd 2024 - present

- Contributed to the design and development of a Manufacturing Execution System (MES) for the space industry
- Designed and implemented key frontend modules using React.js and Material UI, improving UI consistency and user experience across the MES platform
- Developed and deployed a production-ready Visitor Management System (VMS), streamlining visitor registration and tracking for clients
- Collaborated with cross-functional teams in requirement gathering, application design, and sprint planning, contributing to successful project delivery.
- Involved in client demos and stakeholder presentations, aligning deliverables with business needs.
- Identified, diagnosed, and resolved production issues, reducing user-reported bugs and increasing system reliability.
- Utilized Vite, Axios, and Git to ensure scalable, maintainable, and version-controlled frontend development.

TECHNICAL SKILLS

Frontend Technologies: React.js, Redux, React Router, JavaScript (ES6+), HTML5, CSS3, Material UI, Tailwind CSS

Tools & Build Systems: Vite, Git, npm, Axios

Core Concepts: Responsive Web Design, Component-Based Architecture, State & Props Management, REST API Integration, Performance Optimization, Debugging & Troubleshooting

PROJECTS

Swiggy Clone (Food Ordering App)

- Developed a Swiggy-like food ordering platform using React.js, Redux, React Router, and Swiggy APIs, featuring restaurant listings, menu display, and cart management.
- Strengthened skills in state management, routing, and responsive UI design.

To-Do List Application

- Built a task management app using JavaScript, HTML, and CSS.
- Implemented features like add/edit/delete tasks, filtering, and persistence with localStorage.

Calculator

- Created a responsive calculator in JavaScript with support for basic arithmetic operations.
- Implemented DOM manipulation, event handling, and input validation, handling edge cases such as division by zero.

CERTIFICATIONS

| HTML Nanodegree Certification | Preplnsta |
|---|-----------|
| CSS Nanodegree Certification | PrepInsta |
| GIT Nanodegree Certification | Preplnsta |
| Java Full Stack Development and Testing | KodNest |

EDUCATION

B.Tech Computer Science Engineering

Avanthi Institute of Engineering & Technology

2019 - 2023

- Served as Class Representative (CR) for academic and administrative coordination
- Actively participated in NSS (National Service Scheme) initiatives

SOFT SKILLS

- Effective Team Collaboration & Knowledge Sharing
- Strong Requirement Analysis & Solution Design
- Client Interaction & Clear Communication
- Creative Problem-Solving & Critical Thinking
- Adaptability in Fast-Paced Environments
- Continuous Learning & Self-Improvement
- Attention to Detail & Quality Focus

LEADERSHIP & EXTRACURRICULARS

- Farewell Event Organizer: Planned and executed a well-received college farewell event, demonstrating event planning, collaboration, and time management skills
- NSS Volunteer: Participated in community service and awareness programs through the National Service Scheme
